XAVIER YVERNEAU

—— BOURGOGNE ——

INTRODUCTION BY XAVIER

On a day-to-day basis, through my work in the vineyard and during the winemaking process, I strive to respect nature by letting the terroir, the wine and the vineyard speak for itself. It gets translated into the absence of weedkillers, minimalistic use of sulfites and relying on natural yeasts present on the grapes.

HISTORY & PROJECTS

THE REBIRTH OF A FORGOTTEN VINEYARD SPANNING TWO GENERATIONS

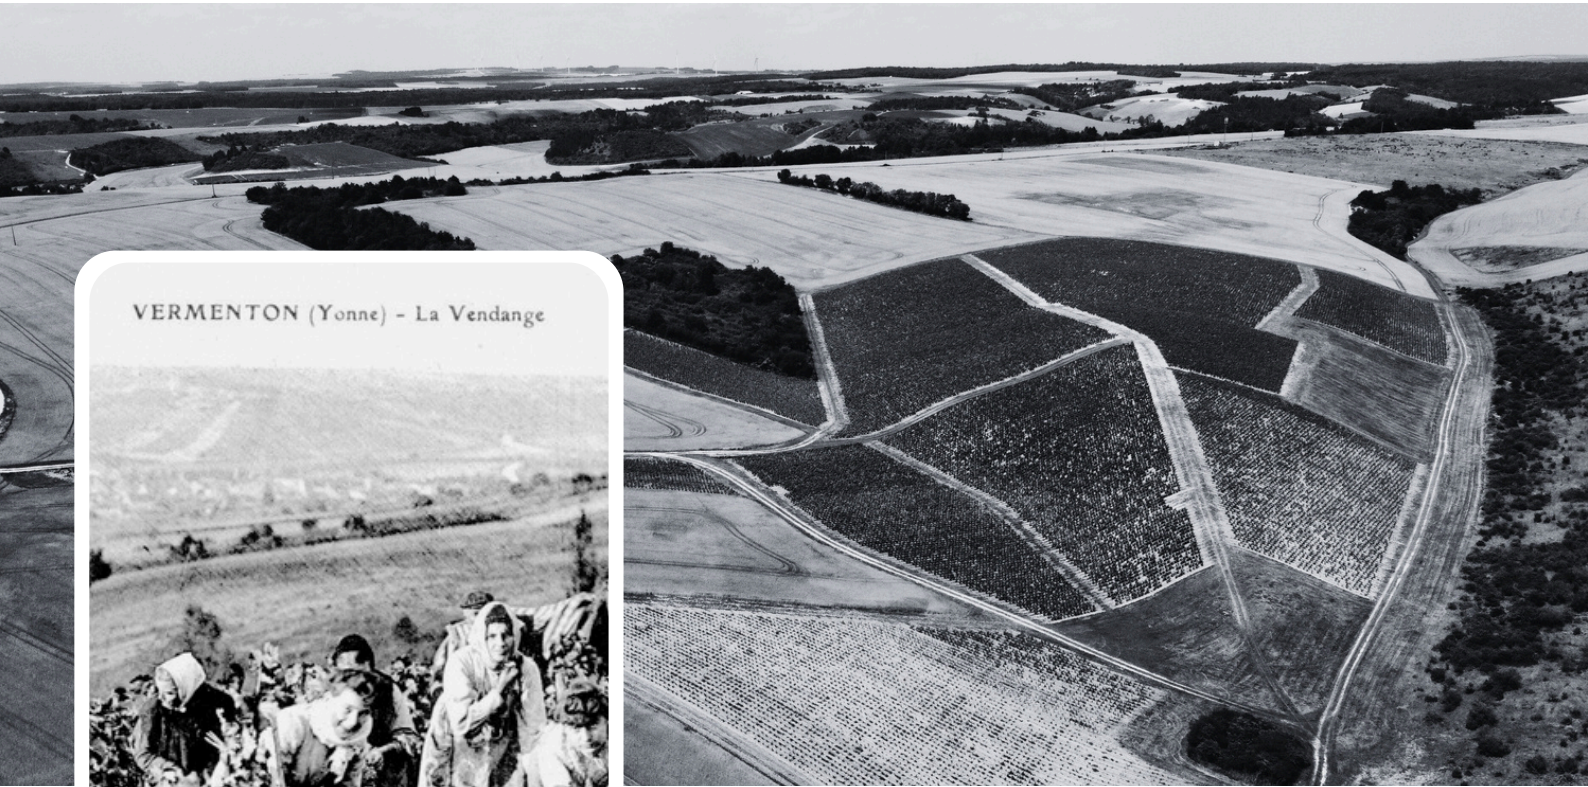

Upcoming projects that offer even more **terroir wines** with **more feelings** and **more pleasure to share**

VERMENTON

LA RENAISSANCE D'UN VIGNOBLE

The Renaissance of a Vineyard

VERMENTON (Yonne) - La Vendange

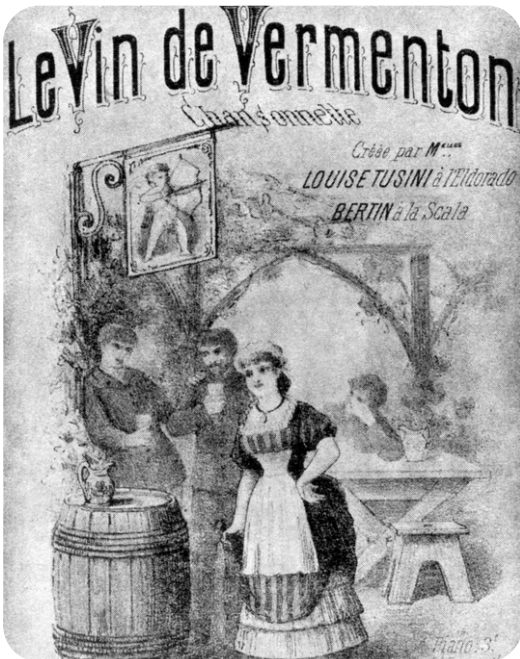

A WORD FROM THE WINEMAKER

A historically recognized terroir in Northern Burgundy, having grown to 1000 hectares, the vineyards of Vermenton are slowly being reborn following the phylloxera epidemic that caused them to be forgotten. Its hillsides, classified as AOC Burgundy in 1992, have undergone a veritable renaissance thanks to several winegrowers and winemakers, in particular my parents Cécile and Mathieu Yverneau. In November 2023, I was able to make two of my dreams come true: to take over the family vineyard and to promote the Vignoble de Vermenton through distinctive, lively wines.

IDENTITY

1. Respecting biodiversity to the fullest, by letting the wine and terroir express itself with **zero use of weedkillers**
2. Crafting vibrant wines by working with **natural yeasts** (normally present on the grapes)
3. A minimalist wine making process with less use of sulfites, in order to have as **lively** wines as possible

Two Ranges

TERROIR & RIPAILLE

NEWS

Lively, vibrant, accessible wines!

PARCELLAIRE & EXCELLENCE

Particular attention is paid to the finest plots and to the Villages appellations, with the aim of approaching excellence. Limited in quantity, the individual cuvées are harvested by hand, corked, waxed and numbered.
